

Health and well-being Ambassadors

This year we introduced a new strand to the sports leadership programme – year 4 Health and Well-being Ambassadors. Mrs Richardson trained 10 year 4 children to be able to confidently lead their own year group then younger classes with fun games with and without equipment and referring intra school Commonwealth Games competitions. More children than ever are taking part and feel more confident, happy, part of a team and inspired to try new activities.

Photos of the activities they organise and lead
